THE BRITISH COLUMBIAN.

No. 59, Vol. 3. NEW WESTMINSTER, SATURDAY, SEPTEMBER 5, 1863. Price 6d. or 12 cts.

THIS JOURNAL is published every Wednesday and Saturday morning, and despatched by Mail and Express to all parts of these Colonies, Washington Territory, Oregon, California, the Eastern Provinces and Great Britain.

The utmost care is taken to procure authentic information from all the mining districts of British Columbia, and every exertion made to obtain reliable statistics respecting the country generally.

The British Columbian.

NEW WESTMINSTER, SATURDAY, SEP. 5, 1863.

NANAIMO—ITS POSITION AND PROSPECTS.

The selfish and illiberal policy pursued by the Island Government in respect to Nanaimo naturally leads one to inquire into the motive, for a motive there undoubtedly is, for such sectional, class legislation as has disgraced the Legislative Halls at James' Bay. Were that body confined to and representing only the town of Victoria they could not be more local and sectional in their views and acts. Acting for the Island, as a whole, it was not their duty to inquire how such a measure would affect Victoria particularly, but how it would affect the Colony at large, and not refuse to establish a Port of Entry at Nanaimo, or anywhere else where commerce would justify such a step, simply from a fear that it might possibly become a competitor for the trade hitherto so greedily monopolized by that favored town.

A paragraph which appeared in our last issue respecting the visit of the Admiral fully demonstrates the accessibility and amplitude of that port for ships of the largest class, and points unmistakably to Nanaimo as a harbor of no small importance in these waters. Indeed we have long thought that it requires only a few heavy commercial firms there and the removal of legislative obstructions in order to enable it to rival Victoria for the coast and sound trade. It even possesses some decided advantages over that place. It has a good harbor, which the other has not; and it has extensive coal mines from which to furnish ships with return cargoes, an advantage of which Victoria is entirely destitute. Vessels consigned to Victoria have now to go round to Nanaimo for the purpose of getting cargoes; and in order to do so they are obliged to ballast with stone at $3 per ton. Thus a vessel of 1,200 tons will have to incur the trouble of taking in at Victoria and jetting out at Nanaimo four hundred tons of stone at a cost of $1,200, all of which would be saved in the case of vessels consigned to Nanaimo.

As regards the relative position of Nanaimo and Victoria to this place there are also several points in which the former possesses a marked advantage. Nearer to us by 35 miles and with a beautiful, open sheet of water all the way to the mouth of the Fraser, or to Burrard Inlet, across which vessels glide at all seasons in three or four hours, Nanaimo would possess a very decided advantage over Victoria so far as regards competing for the trade of this port. Of course we attach no importance at all to Bute Inlet, believing, as we do, that it has even now proved a complete failure; but taking it at the Victoria estimate Nanaimo would unquestionably come in for, if not all, at least the lion's share of whatever trade it might command.

Without in any way begging the question, or indulging in speculative advantages, Nanaimo, in real, natural facilities for a commercial emporium for these parts, stands second to no place if we except New Westminster. Indeed it is very evident that the people of Victoria so view the subject, and hence the policy they have pursued towards it. If they were not afraid of Nanaimo why deny it those common rights by which the point would be put to a practical test? But her rights she will have in spite of local jealousy and selfish intrigue, and the sequel will show whether we were warranted in these remarks.

HOLLOWAY'S OINTMENT.—Sores, wounds, ulcerations and other diseases affecting the skin, are amendable by this cooling and healing unguent. It has called forth the loudest praises from persons who had suffered for years from bad legs, abscesses, and chronic ulcers, after every hope of cure had long passed away. None but those who have experienced the soothing effects of this Ointment can form an idea of the comfort it bestows, by restraining inflammation, and allaying pain. Whenever this Ointment has been once used it has established its own worth, and has again been eagerly sought for as the easiest and safest remedy for all ulcerous complaints. In neuralgia, rheumatism, and gout, the same application, properly used, gives wonderful relief.

THE WORST FORM OF CONCUBINAGE.—Under this heading a Boston paper says:—"A young slave woman was recently sold in Richmond for $3,080.—*She was entirely white, hence the remarkable price commanded.* This is one of the beautiful features of that "divine, peculiar institution," which must not be discussed. This wretched slave woman is probably the half-sister of some elegant lady who moves in the best circles of F. F. V. society in the rebel capital.

NEW WESTMINSTER, SATURDAY, SEP. 5, 1863.

NEWS FROM CARIBOO.

DATES TO THE 27TH.

Arrival of Barnard's Express, with $10,000.

Mr. Humphrey, the efficient Express agent, arrived yesterday by the steamer *Reliance*. The news is unimportant. The rich claims continue to yield about as usual. No new strikes of any importance. The quartz excitement continues, and many are out prospecting. There is every confidence felt in several of the leads already discovered. Provisions continue firm at prices last quoted. The road from the Mouth of Quesnelle is just about finished, and Capt. Grant was discharging the men. A considerable number of men were on the way down. The Escort left three days before the Express, and were passed by it at Soda Creek. Their stock had given out, and Davidson hitched his horses on to the waggon to give them a lift. They were believed to have something over $100,000. The road from Yale to Lytton is to be opened in ten days for traffic. Two men were arrested at Yale on suspicion of being concerned in the murder of Clegg. Mr. McLean was out on the road with a number of men watching for the murderers. On the evening of the 25th two men came along and were challenged, but as they did not reply but commenced to run the party fired upon them, discharging 8 shots, and it is believed, wounding one of them. They tracked them next day, but at latest accounts had not been caught. One of them was seen by an Indian a few days afterwards back in the mountains. He told the Indian McLean had shot at him. The papers taken from the person of poor Clegg, together with the canteenas, have been recovered. The papers included notes of hand, &c., of the value of $40,000. Mr. Dodge paid the Indian $200 for finding them.

HER MAJESTY'S SHIP "SUTLEJ."

To Rear-Admiral Kingcom belongs the honor of first visiting this portion of Her Majesty's dominions in a ship bearing the flag of the Commander-in-chief of the Pacific squadron. To British Columbia it is an era in its history which should be recorded in the archives of the Colony, and we trust the Admiral will not be permitted to leave his present anchorage in English Bay without receiving a complimentary address from the city either through the Municipal Council or more directly from the people.

H. M. Ship *Sutlej* is a first class frigate, with all the improvements of naval architecture and modern invention. She sits upon the water like a yacht, and it is not until you are fairly on board and after roaming through the labyrinth of lower decks, store rooms and cockpits that one is struck with her immense proportions. Her length exceeds 300 feet, and her tonnage is over 3,000 tons. With a nominal steam power of 500 horse, she is pierced for 51 guns, although actually carrying only 36. Of that number there are five 110 pounder Armstrongs, the balance being composed of solid shot 68 pounders, beside the usual quarter deck guns, which are also Armstrongs of a smaller calibre. She has a complement of 700 men, and appears to be in first rate fighting order; and if, unfortunately, she should have to encounter a foe, we feel assured that the brave and gallant old Admiral, Captain, officers and crew will give a good account of themselves.

It is a fitting *finale* to the description of this fine ship to accord to the Admiral and officers the thanks of those of this community who have been fortunate enough to visit her, for their urbanity and general courtesy, and to wish them God speed on their expected cruise.

OUT AT LAST.—The British Columbia Prize Essay has at length passed through the press, and we are indebted to the Chief Commissioner for an early copy which was laid on our table yesterday. It is a very neatly got up pamphlet of 64 pages, with an appendix of 33 pages of well printed matter. Of the intrinsic merits of the work we shall not now treat, as it is our intention to publish it in these columns, commencing on Wednesday next, and thereby give it a circulation which it could not be hoped otherwise to attain. Our attention has been arrested by the following passage which occurs under the head of "Political and Social Aspects," and is a gross libel upon the community. We are assured by two of the gentlemen who were appointed as judges that no such sentiment, but the very reverse, appeared in the manuscript submitted to them and upon which they awarded the prize. This is, to say the least, a very awkward looking affair; but we must leave it to the gentlemen who composed the commission to put themselves right before a slandered public:

"The manner in which the Government is carried on, and the laws administered, gives general satisfaction. So long as the Colony progresses, and its new necessities are met by new enactments, the colonists (with the exception of an uninfluential clique at New Westminster) are satisfied; they have not the wish, as in the present circumstances they would not have the time, to legislate for themselves."

WHEN IS A HOUSE A HOUSE?—After they are sworn in, say we. The Island Legislators, however, appear to entertain a different opinion, and on the 2nd inst. proceeded to elect a Speaker before taking the oath! They might just as well have met at a grog-shop any day subsequent to their return and performed that act.

New Advertisements.

CLINTON.

WATSON & CO., OF THE 47 MILE HOUSE, situated at the Junction of the Lillooet, Lytton and Alexander Wagon Road, beg leave to inform the travelling public that they have erected and are now fitting up near their old stand a large and commodious house to be known as the CLINTON HOUSE.

THE ABOVE ESTABLISHMENT is being fitted up with a large and commodious Bar-room, with a splendid Billiard Table; also a dining room capable of seating 50 men, private sitting room, with bed rooms attached, for the accommodation of families. Bedrooms fitted up with Pulu Mattresses. Bunks and mattresses free of charge for those who wish to use their own blankets. The culinary department is under the supervision of an experienced cook. A large garden is attached, from which the table is supplied with fresh vegetables. The best of Liquors always kept at the Bar. Stabling to accommodate 40 horses, with plenty of hay and grain always on hand.

TERMS.

Board per week,	$15 00
do day,	2 50
Single Meals,	1 00
Beds per Night,	1 00
Stabling and hay per night,	1 00
Barley and Oats, per lb.,	25

The Clinton Hotel is a station for the Lillooet and Alexandria Stages, and Barnard's Express. The latest dates of papers, both Foreign and Colonial, always to be seen at the Clinton Hotel.

ALL CURES MADE EASY!!

HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad Breasts and Old Wounds.

No description of wound, sore, or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance whenever this medicament is applied; sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflammation.

These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighbouring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage; and most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

Eruptions, Scald Head, Ringworm & other Skin Diseases.

After fomentation with warm water, utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach, consequently, in many cases, time is required to purify the blood, which will be effected by a judicious use of the Pills. The general health will be readily improved, although the eruption may be driven out more freely than before, and which should not be promoted; perseverance is necessary.

Sore Throats, Diptheria, Quinsey, Mumps & all other Derangements of the Throat.

On the appearance of any of these maladies the Ointment should be well rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat: this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions.

Scrofula or King's Evil and Swelling of the Glands.

This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action of purifying the blood and strengthening the system renders them more suitable than any other remedy for all complaints of a scrofulous nature. As the blood is impure the liver, stomach and bowels, being much deranged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs.	Chapped Hands,	Scalds.
Bad Breasts.	Contracted and Stiff Joints.	Sore Nipples.
Burns.	Elephantiasis.	Sore-throats.
Bunions.	Fistulas.	Skin-diseases.
Bite of Mosquitoes and Sand-Flies.	Gout.	Scurvy.
Coco-bay.	Glandular Swellings.	Sore-heads.
Chiego-foot.	Lumbago.	Tumors
Corns (soft).	Piles.	Ulcers.
Cancers,	Rheumatism.	Wounds.
Chilblains,		Yaws.

Sold at the establishment of PROFESSOR HOLLOWAY 244, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilised world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.

*** There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. au15

The British Columbian.

NEW WESTMINSTER, SATURDAY, SEP. 5, 1863.

THE WAR.

THE LAST GUN IN SUMTER DISMOUNTED!

The Federals Shell Charleston!!

Beauregard asks a truce of 40 hours.

The Pacific mail steamer arrived at Esquimalt on Thursday, bringing war news to the 26th ult., most interesting and favorable to the Federal cause. We give the following summary:

CHARLESTON, Aug. 23.—On Saturday, 604 shots were fired at Sumter, 419 of which struck inside or outside. The east wall is scaled and battered and the parapet under it ruined. The northwest wall and arches have fallen in. The guns are all dismounted. The land batteries opened from south and north on Sunday, the Monitors on the east and west coming close up. The fire is very damaging. The shot swept through the fort, and the shell wounded several officers, including Col. Rhett, commanding. He is ordered to hold on until relieved, or the place is taken. Col. Gaylord, of Wagner, is killed, and several wounded. 23 vessels are inside the bar, including the ironclads. Gilmore sent notice on Sunday, that at 11 o'clock to-morrow he would open on Charleston. Meantime non-combatants could leave. Another peace meeting has been held in North Carolina.

NEW YORK, Aug. 24.—A Morris Island letter, dated the 19th, to the *Herald*, states that the fire of our batteries still continued, and the masonry of Sumter was gradually crumbling away. The rebel flag was shot away twice on the 18th, but was replaced. A violent storm raged on the 18th and continues to-day. The parapet of the fort is completely demolished, and the abutments at the south angle are torn away. Breeches have been made through which our projectiles fly, crushing the opposite wall, as can be plainly seen. Deserters say that the effect on Sumter is terrible.

NORFOLK, Va., August 25.—The Richmond *Examiner* of to-day has been received, containing Charleston dates to the 24th, which says that last night, at 12 o'clock, the enemy opened fire on the city, firing fifteen eight-inch Parrott shells. Non-combatants are leaving the city in a continuous stream

CINCINNATI, Aug. 26th.—The returns from 106 counties in Kentucky give Bramlette 50,692 majority.

A Cairo dispatch says it is reported that Gen. Pleasanton died last week at Selma, Alabama.

NEW YORK, August 26.—The following is a letter from Mr. Fulton, editor of the Baltimore *American*, off Charleston, the 22nd:—"Sumter still flies the rebel flag, but its west walls is a mass of ruins. Some of our shells explode inside the Fort, and others pass through the east wall, going in one side and coming out on the other. We have now fine weather and it is expected that the Monitors will go in force to Sumter this afternoon. The Ironsides and wooden vessels have shelled Forts Wagner and Gregg every day, keeping them quiet while the shore batteries are hammering at Sumter. Seven deserters were picked up last night by the Mentak. They report the rebels preparing to abandon Sumter and blow it up, and they have been taking the guns from it ever since the attack in April, which demonstrated their inability to hold it. There are not more than six or eight guns in the Fort at present. The remainder being quakers. They say also that the North Carolina troops are anxious to go home and almost in a state of mutiny. They also report that Fort Sumter was extensively breached in April. Sumter's flag has been shot away four times and now there is no flag up. The rebel batteries on James Island threw shell night and day into our lines, but our causualities are not over two per day. Admiral Dahlgren's is to let the army and navy batteries finish Fort Sumter, excepting that he has plenty of work for the Monitors in taking the interior line of defences.

The letter confirms the rebel report that Gen. Gilmor sent a flag of truce to Fort Wagner announcing his intention to commence to shell the city within 48 hours from Friday, requesting Gen. Beauregard to remove the women and children. The whole of the Monitor fleet up Friday night for another assault upon Fort Sumter. The Passaic grounded and so much time was lost in getting her off that the expidition was abandoed. The rebels did not discover her position although she was within a half a mile of the fort.

NEW YORK, Aug. 26—Cavalry pickets of the rebels called yesterday morning across the Rappahannock to ours that Fort Sumter had been taken by us.

CHICAGO, Aug. 26.—The following circular relating to the draft in California has just been received from the War Department:

PROVOST MARSHAL GENERAL'S OFFICE,
Washington, August 21st, 1863.

CIRCULAR NO. 75.—By direction of the President of the United States the State of California has been divided into three Enrollment Districts, as follows: The counties of Butte, Colusa, Del Norte, Humboldt, Klamath, Marin, Mendocino, Napa, Plumas, Shasta, Sierra, Siskiyou, Solano, Sonoma, Suttet, Tehama, Trinity, Yolo and Yuba, to constitute and be known as the Northern District, headquarters at Marysville.

The counties of Amador, Calaveras, El Dorado, Nevada, Placer, Sacramento, San Joaquin, Stanislaus and Tuolumne, to constitute and be known as the Middle District, with headquarters at Sacramento.

The counties of Alameda, Buena Vista, Contra Costa, Fresno, Los Angelos, Mariposa, Merced, Monterey, Santa Barbara, Santa Clara, San Luis Obispo, San Mateo, Tulare and San Francisco, to constitute and be known as the Southern District, with headquarters at San Francisco.

JAMES B. FRY,
Provost-Marshal General.

LATEST.

SAN FRANCISCO, Aug. 27, 7:30 P.M.—The Federals are throwing shells into Charleston. Beauregard protests on the grounds of humanity, and asks a truce of forty hours. No terms will be granted except unconditional surrender. The last gun in Fort Sumter has been dismounted.

European News.

The *Saturday's Review*, formerly strongly enlisted in the Southern cause, has changed its tune, and thinks their cause lost.—The Polish National Government had ordered a forced loan of 21,000,000 florins. Several insurgent leaders had been hanged at Warsaw, where rumors of an intended outbreak are current.—The *Times* does not attach much importance to the Federal victories, while the *Daily News* takes quite a different view of matters.—Britain, France and Austria have agreed to send a common note to Russia.—An iron ram, building in England for Russia, had been hurried off incomplete.—The Bourse was flat, at a China telegram announcing the Japan question temporarily settled. The American Legation had been burned.—A diplomatic memorial announces that the Arch-duke Maximilian accepts the crown of Mexico.—It is asserted that the Spanish Ministry approve the Mexican Empire. The Madrid journals are divided.—Three British war steamers were recently sold at Plymouth to a London company, and are suspected of being intended for the Confederacy.—The replies of the three Powers were all sent to St. Petersburg, to be delivered on the 17th, and forthwith published. Each Cabinet replied to the arguments addressed to itself, but terminated with an identical paragraph testifying to the unity of their views. Vague rumors are afloat that Prussia contemplates secession from the German Confederation.

The London *Times* says that rumours were current that in consequence of the recent menacing news from America the British Government intends to send additional troops to British North America. The same paper says with emphasis that it should not be surprised if something arose out of the alleged proposition of Jeff. Davis to Napoleon for an offensive and defensive alliance between Mexico, under the French protection, and the Confederacy, which would be quite consistent with the French policy. The *Times* speaks of the election of Maximilian as unimportant, and says it will tend to a union between France and Austria, and to a division between France and America. The Northernors must be incensed against Napoleon, and the Federals can hardly fail to come in collision with the new Emperor.

English News.

Our English advices are to the 22nd July, but unimportant. The British Columbia Boundaries Bill passed a second reading in the House of Commons on the 20th July.

On Monday, the 13th July, the members of the East India service club entertained Captains Speke and Grant, the discoverers of the source of the Nile, at a sumptuous banquet at Willis' rooms. One hundred and fifty gentlemen were present. On the same day a grand field day was held at Wimbleton, which was honored by the presence of the Prince and Princess of Wales. The great event of the day, however, was the match between the Houses of Lords and Commons. The members of the House of Lords were under the command of Lord Colville, and those of the House of Commons under Captain Wigram, of the cold-stream guards. The practise on both sides was remarkably good, and resulted in the defeat of the Lords by a majority of 37. They scoring 423, and their opponents 460.—The Government were beaten by a majority of 36 upon a motion to reduce the duty on Fire Insurance.—Willoughby Wade, the adjunct of the 4th Surrey Volunteers, who was charged with several disgraceful assaults upon pregnaut women, has been convicted and seintenced to hard labor for 18 months.—Lieut. Col. Crawley, not content with his heartless outrage upon Sergeant Major Lilly, has court-martialed Corporal Blake, who was corporal of the guard, and who posted the guard over the unfortunate Lilly. The alleged reason for this audacious act of brutality is that the corporal, having some compassion on the prisoner and his sick wife, posted the sentry outside instead of inside the door. His brutal colonel had him sentenced for this act of humanity to 42 days hard labor and loss of his good conduct stripe.

The Duke of Hamilton died somewhat suddenly of congestion of the brain, at Paris, on the 15th July. The late Duke was hereditary keeper of Holyrood Palace—an honour held by his ancestors since 1646—Right Marischal of Scotland, and Colonel of the Queen's own Royal Lanark Militia, and Major Commandant of the Glasgow Yeomanry. He was Lord Lieutenant of Lanarkshire, and Deputy Lieutenant of the county Bute. By the death of his grace, the titles and estates are inherited by his eldest son, the Marquis of Douglas and Elydesdale. Her Majesty the Queen received the New Zealand Chiefs at Court on the 15th, when they had the honour of kissing Her Majesty's hand. It was reported that Her Majesty intended going abroad for a short time in August. She would travel *incog.*, under the title of Duchess of Lancaster, as upon her last tour, and the strictest privacy would be maintained. Her Majesty, after visiting the King of the Belgians, would proceed to the Castle of Rosenau, near Coburg, the birth place of the Prince Consort. She would not stay abroad more than a month. Lord Clyde has been seriously ill, but was recovering by latest advices. On the 14th July there was a grand review of all the troops at Aldershott, in the presence of their Royal Highnesses the Prince and Princess of Wales. The day was fine and everything passed off well. A long debate took place in the House of Lords on the 14th, relative to the case of the Margaret and Jessie, a Confederate steamer which had been fired into and sunk by the Federal man-of-war Rhode Island, while in neutral waters. The Earl of Airlie brought the matter forward, and in reply Earl Russell assured the House that the matter would be investigated.

Mr. Fitzwilliam moved in the House of Commons on the 10th July for copies of correspondenc concerning official corruption in Vancouver Island. Mr. Fortescue resisted the motion unless the mover would insert the words, "or extracts," after the word "copies," which, after some discussion, was assented to.

Canadian News.

Dates by telegraph are to the 18th of August. The Canadian papers give unmistakable evidence of the intense excitement that is now prevailing in the provinces, and the question of the separation of Upper and Lower Canada is seriously discussed. Amidst the domestic troubles Thomas D'Arcy McGee has written a letter which is extensively copied and commented on, in which he expresses fears of an invasion of Canada by the United States. He says: "I speak upon no newspaper authority, upon no doubtful information, when I say that the plan contemplated at Washington for the invasion of Canada is to march one hundred thousand men up the district of Montreal, to cut the connection between Upper and Lower Canada, to obtain religiously from intermeddling in our local affairs, but to force a separation by the army occupation interposing a military barrier to their intercourse. What would follow such separation has not escaped the calculations of the authorities at Washington." In view of these facts, he asks, will England stand by us, and argues that the connection between the provinces and the mother country is merely nominal, and that other and better defined arrangements must be entered into: the connection must be made real, or the assistance of England will be found in the day of need, by our own default, nominal and not real.

VICTORIA ITEMS.—The steamer *Henrietta* arrived from Victoria yesterday, bringing files of the *Chronicle*, only, from which we glean the following: The new House of Assembly met on the 2nd, when all the newly elected members, except Mr. Street, member for Saanich, answered to their names. Chief Justice Cameron, who occupied the Chair, called upon them to elect their Speaker, when Dr. Helmcken, who has occupied that position during the two previous Parliaments, was proposed by Major Foster, seconded by Mr. Young, and was elected without opposition. The House was adjourned till the following day, when the members were to take the usual oath. The question has been raised outside whether it is legal to elect a Speaker before the members qualify. It was estimated that $400,000 in treasure (being the product of the mines of British Columbia) was shipped by the steamer Brother Jonathan on the 3d. News from Bute Inlet was said to be more favorable, although there was some very difficult and dangerous blasting to do, at which the men did not care to expose themselves. The two men who were lost and nearly starved in the mountains had recovered. Mr. Malowanski had declined the nomination for Chief Engineer by the Fire Department, and it was expected Mr. Drummond would be put forward. A somewhat serious difficulty had taken place in the Royal Hospital between a person of the name of Bromley, who was employed in that establishment, and the steward and matron. The affair was heard in the Police Court, and went against Bromly, who was required to enter into his own recognizance in the sum of £10 to be of good behaviour. Another pleasure excursion was being arranged to San Juan Island. The *Caledonia* was to be used for the occasion. The str. *Otter*, Capt. Swanson, had returned from a trading cruise round Vancouver Island. The Indians were peaceable and eager to trade. The new building for the use of the Supreme Court is completed. The above, together with a number of "drunks," squaw brothel rows, &c., compose the local news of Victoria during the Wednesday and Thursday last, as recorded in the *Chronicle*.

Since writing the above, the steamer *Caledonia* has arrived, bringing files of the *Colonist* and *Express* containing an account of the opening of Parliament, with a report of the Governor's speech, which, however, possesses nothing of special interest to our readers.

STILL LATER.—The str. *Enterprise* arrived last night bringing yesterday's *Colonist* and *Chronicle*. From the former we learn that on Thursday, after the opening of the House of Assembly His Excellency the Governor and suite paid a visit to His Worship the Mayor at his residence in Broad Street. Governor Douglas was heartily received by Mr. Harris, who testified his appreciation of the compliment paid to him in his hour of suffering. We are pleased to learn that the Mayor is progressing as favorably as could be expected.

ADMIRAL KINGCOME, R. N., and suite, accompanied by Captain Franklin, of Nanaimo, went up by the str. *Reliance* on Wednesday. They arrived at Yale on Thursday, and rode out as far as the Suspension Bridge, returning last evening to this city. The Admiral expressed himself highly pleased with everything he saw, especially the splendid bridge, and before debarking he thanked Capt. Irving on his own behalf and that of the party for the excellent accommodation and kind attention accorded them during the trip. H. M. gunboat *Forward* came round yesterday, and will take the Admiral to his ship this morning.

ADDRESS TO REAR-ADMIRAL KINGCOME.—A public meeting called by the Mayor upon a requisition numerously signed by the people was held in the Hynck Hall last evening, for the purpose of considering the propriety of presenting an address to Admiral Kingcome. The Mayor having been appointed to act as Chairman and Mr. Robson as Secretary, a draft of an address was submitted and adopted. It was then moved by Mr. Holbrook, seconded by Mr. Ramage, and carried, that a deputation consisting of Mayor Dickinson, Councillor Armstrong, and Mr. J. T. Scott, Captain of the Fire Company, be appointed to sign the address on behalf of the people, and present it to the Admiral, after which the meeting was adjourned.

B. C. & V. STEAM NAVIGATION CO.—There is to be a meeting of the shareholders of this company in Victoria on Monday next, when it is expected that radical changes will take place in the management and general affairs. Meanwhile several shareholders have sold at 15 cents in the dollar, which would seem to indicate anything but a healthy state of things.

"SUNDAY EXCURSION".—Some enterprising gentlemen have chartered the steamer Caledonia for an excursion to the British Garrison, San Juan Island. The day will be more convenient to many who are in steady employment all the week than any other, and by fixing the fare, without attempting to provide refreshments, the directors have avoided any occasion of disappointment."

We have been pained at seeing the above item in Thursday's impression of the *Daily Chronicle*. That a newspaper maintaining, generally, a moral tone should come out openly in favor of Sabbath desecration is most surprising.

DEATH OF THE NOTORIOUS DR. DILL.—The notorious covict, Dr. Dill, of Montreal, Canada, sentenced to imprisonment for life in the Provincial Penitentiary, died in that institution in June last after a short illness.

CUSTOMS RECEIPTS for the week ending 31st August, 1863: Duties, £1461 1 4; harbor dues, £19 13 8; head money, £8 8; tonnage dues, £138 3; warehouse fees, £0 4; fines and seizures, £4 3 4; inland navigation license, £3 16. Total £1635 9 4.

Noble Act of a Galley Slave.

A young man recently made his escape from the galleys at Toulouse. He was strong and vigorous, and soon made his way across the country, and escaped pursuit. He arrived the next morning before a cottage in an open field and stopped to beg something to eat and concealment while he reposed a little. But he found the inmates of the cottage in the greatest distress. Four little children sat trembling in a corner, their mother was weeping and tearing her hair, and the father was walking the floor in agony. The galley slave ashed what was the matter, and the father replied that they were that morning to be turned out of doors because they could not pay their rent.

"You see me driven to despair," said the father; "my wife and little children without food or shelter, and I without the means to provide any for them."

The convict listened to this sad tale with tears of sympathy, and then said:

"I will give you the means. I have but just escaped from the galleys: whoever secures and takes back an escaped prisoner is entitled to a reward of fifty francs. How much does your rent amount to?"

"Forty francs," answered the father.

"Well," said the other, "put a cord around my body and I will follow you to the city; they will recognize me and you will get fifty francs for bringing me back."

"No, never!" exclaimed the astonished listener; "my children should starve before I would do so base a thing."

The generous young man insisted, and declared at last that he would go and give himself up if the father would not consent to take him. After a long struggle the latter yielded, and taking his preserver by the arm, led him to the city and to the mayor's office. Everybody was surprised that a little man like the father had been able to capture such a strong young fellow, but the proof was before them, the fifty francs were paid, and the prisoner sent back to the galleys. But after he was gone, the father asked a private interview of the mayor, to whom he told the story The mayor was so much affected that he not only added fifty francs more to the father's purse, but wrote immediately to the minister of justice, begging the noble young prisoner's release. The minister examined into the affair, and, finding that it was comparatively a small offence that had condemned the young man to the galleys, and that he had already served out half his time, ordered his release.—*French paper.*

EDUCATION IN INDIA.—The annual expenditure of government for education now amounts to 2,500,000 rupees, ($1,250,000,) besides 100,000 rupees given to various missionary schools as "*grants in aid.*" The government supports 4,158 state seminaries, with 127,513 scholars, and in all the missionary schools are about 100,000, making the total in both government and missionary schools amount to 227,513 Hindoo youth in process of education. There are, however, 30,000,000 Hindoo children who ought to be in school.

THE MOUTH THE CENTRE OF EXPRESSION.—All parts of a face doubtless have their fixed relation to each other and to the character of the person to whom the face belongs. But there is one feature, and especially one part of that feature, which more than any other facial sign reveals the nature of the individual. The feature is *the mouth*, and the portion of it referred to is *the corner*. A circle of half an inch in radius, having its centre at the junction of the two lips will include the chief focus of expression. This will be easily understood, if we reflect that here is the point where more muscles of expression converge than at any other. From above comes the elevater of the angle of the mouth; from the region of the cheek-bone slant downwards the two *zygomatics*, which carry the angle outwards and upwards; from behind comes the *buccinator*, or trumpeter's muscle, which simply widens the mouth by drawing the corners straight outward; from below, the depresser of the angle not to add a seventh, sometimes well marked—the "laughing muscle" of Santorini. Within the narrow circle where these muscles meet the ring of muscular fibres surrounding the mouth the battles of the soul record their varying fortunes and results. This is the "*nævd vital*"—to borrow Florens' expression with reference to a nervous centre—the *vital knot* of expression. Here we may read the victories and defeats, the force, the weakness, the hardness, the sweetness of a character. Here is the nest of that feeble fowl, self-consciousness, whose brood strays at large over all the features. If you wish to see the very look your friend wore when his portrait was taken, let not the finishing artist's pencil intrude within the circle of the vital knot of expression.—*Atlantic Monthly.*

HENRY WARD BEECHER says: "Life would be a perpetual flea-hunt if a man were obliged to run down all the inuendoes, the inveracities, the insinuations and suspicions which are uttered against him."

A CERTAIN physician of note, resident in the west end of London, is accustomed to receive a coterie of Southern refugees and their English friends, to discuss the cause dear to their hearts. Among others who resort there is Commissioner Mason. One evening Jeff. Davis' ex-coachman, the fugitive negro Jackson, managed to get smuggled into the room with an Abolitionist friend who was acquainted with Mason. As Mason was crossing the room, surprised, no doubt, at the sight of an ebony complexion there, the white Abolitionist interrupted him, and introduced him to "Mr. Jackson, late coachman to your friend, Mr. Davis." The high-blooded Virginian looked for a moment as if he would have insulted the negro, but with the thoughts of the delicate nature of his diplomatic mission, and the troublesome prejudices of Englishmen, he managed to extend his hand, drop his eye superciliously, saying, "Ah, oh, indeed." and walked on. Thus met the haughty Southerner and the contraband equal for once.

WHEREAS default has been made in the payment of the sum of two thousand five hundred and sixty-one dollars, or five hundred and twelve pounds, four shillings sterling which is now due at the date of this notice, on a certain Mortgage, bearing date the 26th day of January, 1862, executed by George S. Houche to Edward Torneay, and registered in the Registrar's Office of the said Colony at New Westminster. on the 1st day of December, A. D. 1862, at 5 minutes past 10 o'clock, A. M., registered in Book number one of Mortgages, at pages 42 & 43, in the year of our Lord one thousand eight hundred and sixty-two.

Now therefore, notice is hereby given that in pursuance of the power of sale contained in the said Mortgage, and of the law in such case made and provided, all the interest of the said George S. Houche in the Water Works in the Town of Yale, and all the interests of the said George S. Houche therein, or appertaining, will be sold at Public Auction, at the Court House at the Town of Yale, on the 28th of September next, at twelve o'clock, noon.

Dated at Richfield this 8th day of August, 1863.

GEORGE H. CARY,
au26-1m *Attorney-in-fact of E. Torneay, Mortgager.*

Poetry.

Absence.

What shall I do with all the days and hours
That must be counted ere I see thy face?
How shall I charm the interval that lowers
Between this time and that sweet time of grace?

I'll tell thee: For thy sake I will lay hold
Of all good aims, and consecrate to thee,
In worthy deeds, each moment that is told
While thou, beloved one! art far from me.

For thee I will arouse my thoughts to try
All heavenward flights, all high and holy strains:
For thy dear sake I will walk patiently
Through these long hours, nor call their minutes pains.

I will this dreary blank of absence make
A noble task-time; and, will therein strive
To follow excellence, and to o'ertake
More good than I have won since yet I live.

So may this doomed time build up in me
A thousand graces which shall thus be thine;
So may my love and longing hallowed be,
And thy dear thought an influence divine.

Frances Anne Kembe.

WHOPPING STORY OF A DOG.—A very good anecdote is related of a Newfoundland dog, owned by a gentleman in Montreal, C. E.—Among other things, the dog has been taught to take a basket and go to market for meat. This duty he performed for some time, when the butcher presented the bill for settlement, and to the astonishment of the gentleman, it was double the account he had kept. The bill was paid, but the dog was suspected and watched; and one day it was found that after doing the regular marketing, he took the basket and did a little on his own account, eating the proceeds on his way home, and on his arrival returning the basket to its proper place. To put a stop to this, the butcher was instructed to give meat only when a piece of paper was found in the basket. The dog tried the marketing on his own account several times, but failed to get anything; and finally, as though he had turned the matter over in his mind, observing how it was done, he one day went in and tore off a piece of newspaper, placed it in the basket, and obtained the hard-earned dinner. If the whole of this is true, it shows a reflectiveness on the part of the dog not often seen among animals, and stamps him as one of the most sagacious of his kind.

MORMONS AT THE SCENE OF JO. SMITH'S INSPIRATION.—The Syracuse (N. Y.) *Standard* says, that when the train carrying eight hundred Mormons arrived at Palmyra on Thursday morning, one of their elders was informed by conductor Chapman that they were upon the spot where Joseph Smith, the first prophet of their faith, was inspired, where he found by special direction the bible which they now receive as the word of God, and whence he took his departure to preach his newly found gospel to the world. Their faithful elder was incredulous, but nevertheless conferred with others of his sort on the subject, and in the end they searched their scripture. There they found that Palmyra, Wayne county, New York, was indeed the scene of their prophet's awakening. Thereupon the whole company was notified of the fact, and in a few moments all of them were out of the cars, gazing about in open-mouthed wonder and awe, the leaders increasing the effect by explanations and exhortations. They were with difficulty got again on board the cars, each one taking a stick, a leaf or a pebble, as a memento of the place.

NEW PRINTING MACHINE.—The London correspondent of *Mackniven and Cameron's Paper Trade Review* says:—There is an English engineer of the name of Wilkinson, who has invented a machine for the printing of newspapers which completely surpasses Hoe's machine in respect of speed. I am unable to go into a detailed description of this machine; but one feature of it that demands note is, that the paper from which it prints is in the web on the reel, and after passing under the type, it is cut into sheets. The extraordinary velocity of the machine is almost incredible, 23,000 copies of the insides of the *Times* being printed once per hour. This machine does without feeders, and the reel of paper that it feeds from is unrolled by its own action. I should think the paper cannot be damped either, or if it is damped, it must be damped by some strange process not now in use. The price of the machine is considerably under the price of Hoe's machine.

An Irishman, catching a thief's hand in his pocket at the post-office, the other day, knocked the thief down, and began to trample on his carcase as if he was dancing a Fardowner's jig. "Wht's that for?" said a bystander. "O," said Pat, "it's small change the feller wanted, and faith, I'm afther givin him a few post-office *stamps!*"

☞ Spurgeon, the sensation Baptist clergyman of London, has published 500 sermons. Of these sermons 8,000,000 copies are in circulation One wealthy gentleman, a zealous friend of Spurgeon, has alone circulated, each year, over 250,000 copies. Since he has been pastor, Spurgeon has baptized 3,000 persons.

"Is it not astonishing," said a wealthy individual, "that a large fortune was left me by a person who had only seen me once?"—"It would have been still more astonishing," said a wag, "if he had left it to you after seeing you twice."

THE SUFFERER'S BEST FRIEND.

HOLLOWAY'S PILLS.

All Disorders affecting the Liver, Stomach and Bowels.

These Pills can be confidently recommended as the most simple and certain remedy for indigestion, flatulency, acidity, heartburn, colic, constipation, and all the many maladies resulting from disordered stomach or bowels. In all diseases it is of primary importance to set the stomach right. These Pills are purifiers, alternatives, and strengtheners of the stomach. They may be taken under any circumstances. Though powerfully tonic, and satisfactorily aperient, they are mild in their operation, and beneficial to the whole system.

Weakness and Debility, Nervous Irritability.

The wholesale effect exercised by these admirable Pills over the blood and fluids generally is like a charm in dispelling low spirits, and restoring cheerfulness. Their general aperient qualities well fit them for a domestic medicine, particularly for females of all ages and periods of life. They never betray any disagreeable irritating qualities; they quickly eject all impurities from the system, and regulate every function of the body, giving wonderful tone and energy to weak and debilitated persons, while they brace and strengthen the nervous system in a most extraordinary manner.

To Regain Health, Strength and Vigour.

Whenever persons find themselves in that state termed a "little out of health," and there are so many causes at work to shorten life, it is necessary that Holloway's Pills, the finest purifier of the blood ever known, should be at once taken, as they not only rid both solids and fluids of all morbid matters, but regulate all disordered actions, and strengthen the frame in a most extraordinary manner.

Old Coughs, Colds and Asthmetical Affections.

These Pills, assisted in their action by rubbing Holloway's Ointment very effectually twice a day upon the throat and chest, and keeping those parts covered with the preparation, will be found the most effectual remedy for asthma, coughs, colds, bronchitis, and influenza. These remedies tranquilize the hurried breathing, soothe the irritated air-tubes, and assist in dislodging the phlegm which stops up the air-passages. This treatment has proved wonderfully efficient in not only curing old settled colds, but asthma of many years standing, and even when patients who were in so bad a state as not able to lie down on their beds lest they be choked with phlegm.

Derangement and Distention of the Bowels, Flatulency Diarrhœa and Dysentery.

Any symptoms of the above complaints should be immediately met by appropriate doses of these Pills, according to the printed directions: delay may be followed by disasterous consequences. These Pills are a certain remedy for all the ailments of the alimentary canal, they secure the thorough digestion of the food, and act most kindly on the stomach, liver, bowels and kidneys. As a household medicine they are unrivalled, and should always be at hand.

Very Important, of Costiveness Beware.

Rarely but little notice is taken of costiveness, yet, at certain periods, it is a sure sign that danger is near. All who are seized with apoplexy and paralysis, have previously suffered from costiveness. In the former case the blood flies to the head, a small vein is ruptured on the brain, and we know the rest. Let wives counsel their husbands, and husbands their wives, never to go to bed a second night, if the bowels have not been properly moved during the day, particularly if they feel heavy and drowsy. A few gentle doses of these fine Pills will regulate the circulation of the blood, and all dangerous symptoms.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague	Female Irregularities	Retention of Urine
Asthma	Fevers of all kinds	Scrofula, or King's Evil
Bilious Complaints	Fits	Sore Throats
Blotches on the skin	Gout	Stone and Gravel
Bowel Complaints	Head-ache	Secondary Symptoms
Colics	Indigestion	Tic Douloureux
Constipation of the Bowels	Inflammation	Tumours
Consumption	Jaundice	Ulcers
Debility	Liver Complaints	Venereal Affections
Dropsy	Lumbago	Worms of all kinds
Dysentery	Piles	Weakness, from whatever cause, &c., &c.
Erysipelas	Rheumatism	

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London: also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Box.

*** There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box. au12

CARIBOO
EVERY PERSON SHOULD KNOW
THAT THE
Shortest, Best and Cheapest
ROUTE
TO THE
CARIBOO MINES
IS VIA THE
YALE AND LYTTON
WAGON ROAD.

The chained distances on the Yale and Lytton Road are as follows:

From Yale to Boston Bar,	28 Miles,
" Boston Bar to Lytton,	32½ "
" Lytton to McLean's,	47½ "
" McLean's to Junction of Wagon Roads,	19 "
Distance from Yale to Junction,	**124 "**

COMPARE THE ABOVE
with the following distances set down by Lillooet Shippers:

From Douglas to Lillooet,	110 Miles
" Lillooet to Junction,	47 "
Dist. from Douglas to Junction,	**157 "**

THE JUNCTION
is the point at which the Wagon Roads intersect each other, and where the Cariboo-bound traveller by the Yale-Lytton and Douglas-Lillooet routes MUST meet. It will, therefore, be seen by the above figures that the traveller by YALE and LYTTON has
THIRTY-THREE MILES LESS TRAVEL
than if he went by the Douglas-Lillooet route.
☞ **Remember that on this Route there are NO PORTAGES where Goods or Animals may be detained.**

Messrs. DUHIG, LANE, BLACK, and other Carriers of Merchandise, advertise to
Carry Freight from Yale to Lytton
$20 per Ton Less
than is or will be charged on the Douglas-Lillooet route.

The New and Splendid Steamer
RELIANCE
CONNECTS WITH THE VICTORIA STEAMER
ENTERPRISE,
and conveys her Freight and Passengers to Yale at greatly reduced rates.

SHIPPERS
desirous of getting Freight through to Cariboo this season are advised to
Shun the Douglas-Lillooet Route!!
☞ and are referred to the testimony adduced in the CRANFORD CASE, wherein witnesses have stated upon oath that **15, 20, or even 30 days** is a REASONABLE TIME to convey Freight from Douglas to Lillooet.

Five Days Only are required to Carry Goods from Yale to Lytton, and
SHIPPERS ARE ASSURED
that if Freight is carried from Douglas to Lillooet for Two Cents per lb.,
Carriers are prepared to Carry
FREIGHT FROM YALE TO LYTTON
WITH SAFETY AND DESPATCH, FOR
One Cent Per Pound!!!

All those who allow themselves to be crammed by Douglasites this year need expect no sympathy from the public if they get broke trying to get goods through that route.
☞ Remember the Cranford affair; and steer clear of extortion and delays.
☞ Travel the Yale and Lytton Wagon Road to the Cariboo Mines.
☞ NEW and COMMODIOUS HOTELS have been erected at convenient distances along the entire length of the route, where FIRST-CLASS ACCOMMODATIONS for both man and beast are bestowed AT MODERATE RATES.
☞ FOR CHEAPNESS, DESPATCH, EASE and SECURITY choose the YALE and LYTTON ROUTE in preference to all others in British Columbia. ma7

Printed and published every Wednesday and Saturday, by JOHN ROBSON, at the office, Lytton Square, New Westminster, in the Colony of British Columbia.
